What is DESIGNER PLASTER?

Natural Stone Finishes

Colortek's Designer Plaster is a collection of mineral-based decorative coatings that replicate the organic beauty of natural stones surfaces.

Combined with special additives to control working characteristics, the Designer Plaster range allows master artisans to create a wide range of effects. These vary from thin and highly polished finishes that resemble marble to deeply textured surfaces that emulate travertine, limestone, clay, and more.

Range Breakdown

Colortek's Designer Plaster range is a natural, environmentally friendly material used for internal and external works.

Depending on the product, the range comes in paste and powder forms, each providing a unique aesthetic look.

Polished Plaster

- Polished Plaster Paste (25 Kg)
- Polished Plaster Filler (powder form) (18 Kg)

Marmorino

- Marmorino F (25 Kg)
- Marmorino G (5 Kg or 25Kg)

Marmocement

- Marmocement G (25 Kg)
- Marmocement F (25 Kg)
- Marmocement C (25 Kg)

Earth Clay

- Earth clay G (25 Kg)
- Earth clay F (25 Kg)

Tadelakt

- Paste (5 Kg or 25 Kg)

Marble Chips

- Powder (6 Kg)

Terrazzo Gold Rush

- Caju, Carrara, Anthracite + Diamond (300 g)

Arena

- BP, GP & YP (700 g)

KEY FEATURES

	INTERIOR - EXTERIOR Protective coating system with UV and harsh elements resistance for interior and exterior surfaces.
	WATER-BASED Water-based coating compliant with VOC regulations
	WATER RESISTANT Provides a washable surface that can be easily cleaned.
	VAPOR PERMEABLE Allows moisture to evaporate and the surface to breathe.
	MOLD & STAIN RESISTANT Prevents the growth of fungi, and inhibits stains from penetrating the surface.
	SOUND ABSORPTION Contributes to sound absorption.
	EXCELLENT ADHESION Excellent adhesion to properly primed and prepared surfaces.
	LOW ODOR No toxic chemicals intake during application.
	ABRASION RESISTANT Prevents the surface from wearing down due to rubbing or friction.
	TINTABLE FORMULA Wide range of colors achievable with Colortek tinting systems.

All the products in this matrix are made of **30% recycled materials**

All the products in this matrix are **compliant with EU directive 2004/42/EC**

DESCRIPTION

Colortek® Decorative Plasters: “Enhancing Spaces with Sustainable Solutions.”

Colortek® Decorative plasters offer a wide range of aesthetic and functional solutions for interior wall finishes.

As the demand for sustainable building materials grows, it was essential to ensure that these plasters comply with the latest EU regulations and prioritize environmental responsibility.

Upholding the Highest Standards

Our decorative plasters are fully compliant with the stringent regulations set by the European Union. This includes adherence to:

- EU Construction Products Regulation (CPR): Ensuring safety, health, and environmental protection standards are met.
- EU Ecolabel: Meeting strict criteria for low environmental impact and resource efficiency.

Embracing Sustainability: ESG Commitment

In addition to regulatory compliance, our decorative plasters are designed with sustainability at the forefront. These products are:

- Made with 30% recycled materials, reducing waste and promoting a circular economy.
- Formulated with eco-friendly material, minimizing the carbon footprint and environmental impact.
- Produced in facilities powered by renewable energy sources, contributing to a greener future.
